

Visionnaire [LR 2412 4%]

Advanced Skin Corrector. Wrinkles - Pores - Evenness

Visionnaire is an advanced skin corrector, so powerful that over half of women no longer want Botox, fillers, or peels...

The exclusive LR 2412 molecule has proven to be more effective than all the leading anti-ageing ingredients.

Your wrinkles will be reduced, pores minimised and dark spots corrected.

Skin Correction Routine

1

Prepare your skin with Visionnaire Beauty Lotion for an instant moist and soft feeling and activate your genes of youth with Génifique Youth Activator for a visibly rejuvenated skin in 7 days.

3

To comfort your skin with a light velvety finish, apply Visionnaire Emulsion to replump and moisturize your skin.

2

Apply 1 pump of Visionnaire Serum, spread the product across the forehead, cheeks and chin in long gliding strokes, working from the centre of the face towards the outline. Then, stroke downwards on the T-zone and across the upper and lower lip, then under the jaw line and down the neck.
